8 n = int(input("Enter number"))
9 for x in range(2,n):
10     if n % x ==0:
11         break
12 if x+1 == n:
13     print(n, "is a prime no")
14 else:
15     print(n, "is not a prime no")
```

Usage

Here you can get help of any object by pressing **Ctrl+I** in front of it, either on the Editor or the Console.

Help can also be shown automatically after writing a left parenthesis next to an object. You can activate this behavior in **Preferences > Help**.
